COMPLETE PEST SOLUTIONS

## Rodent Cleanup and Prevention Sheet,

### Preparation:

#### **Gather necessary supplies:**

- Latex or rubber gloves
- Disinfectant spray
- Paper towels
- Plastic garbage bags
- Soap and/or rubbing alcohol

Ensure proper ventilation in the cleaning area.

### Cleaning Up After Mice:

- **Protection:** Wear latex or rubber gloves to protect your hands.
- **Disinfect:** Spray the area with disinfectant and allow it to saturate for at least five minutes.
- **Removal:** Use paper towels to remove rodent droppings, disposing of them in plastic garbage bags.
- **Reapplication:** Reapply disinfectant over the cleaned area and neighbouring spots.
- **Additional Cleaning:** Disinfect other areas where rodents may have been present, including surfaces, fabrics, and carpets.
- **Hand Hygiene:** Dispose of gloves and wash hands thoroughly with soap and/or rubbing alcohol.

### Removing Dead Rodents:

- **Double Sanitation:** Apply disinfectant and wear gloves when handling carcasses.

### Preventive Measures:

- **Storage:** Do not store empty bottles and cans inside the garage; if necessary, use containers with lids.
- **Garbage:** Avoid storing garbage in the garage or inside the house.
- **Bait Stations:** Do not move bait stations from their designated locations.
- **Regular Maintenance:** Vacuum and maintain sanitation regularly to prevent rodent infestations.

Note: Follow all safety guidelines and precautions to ensure effective cleanup and prevention of rodent-related issues.

Thank you for your cooperation, Should you have any questions or concerns, please feel free to contact us.

Best regards,
